

TEMPEST SAFETY FIRST *Balloon Inflators*

THE CHOICE FOR PROFESSIONAL BALLOONISTS

For nearly three decades, Tempest has been the trusted name in quality, American made balloon inflators for professionals and hobbyists around the world. Only Tempest delivers a number of innovations which ensure unmatched reliability, safety, performance and value.

EXCLUSIVE AIR PATTERN DELIVERS HANDS FREE PERFORMANCE

For many, the *Cone Air Pattern* put out from our blowers is our signature trait. This air pattern seals the envelope opening and prevents it from collapsing and rolling in the wind, allowing for hands free inflation. The “Spinnaker Effect” (air in one side of the envelope and simultaneously out the other side) is also prevented with our inflators.

OPTIONS FOR EVERYONE

All members of the inflator line come with our signature traits: Turbo 2000 shroud, Cone Air Pattern, welded steel frame, Front and Rear Safety Grilles, AirFlex Composition Impeller, anti-vibration feet and more. Yet the inflator line has also grown significantly since its first introduction to include a number of various models and optional features which are designed to fit your unique wants and needs, whether it's electric operation, compact dimensions, economical solutions or something else.

MADE IN THE USA

We believe in attention to detail, and it shows. Everything from the fan's shroud, to its blades, to its frame and even its wheels have been meticulously thought out, tested and proven to ensure it meets our standards and ultimately yours.

Power Blowers™ MADE IN THE USA

Power Blowers deliver everything you expect from a Tempest but in a reduced profile, compact platform and with adjustable tilt for optimal air pattern control. This is the identical model used by tens of thousands of firefighters around the world in their ventilation operations. The features you'll find on these fans include our exclusive Turbo 2000 aluminum shroud, AirFlex composition impeller, welded steel roll-cage frame, front and rear safety grilles, durable non-pneumatic wheels, vibration dampening feet (eliminates walking), flip-up/fold-down handle, custom color options (standard is red) and more.

VSR model features an electric powered motor (GFCI compatible) with adjustable variable speed control. Plugs in conveniently to operate off of an on-site generator or other power source with clean & quiet operation. Standard color option is yellow.

Belt-Drive w/ Honda® Engine

Part No.	Dia.	HP	CFM	Dimensions (WxDxH)	Weight
910-1040	21"	5.5	17,743	24.75" x 21.00" x 26.25"	101 lbs.
910-1060	24"	5.5	18,130	28.25" x 21.75" x 30.00"	112 lbs.
910-1080	27"	8.5	23,943	30.75" x 23.25" x 32.50"	154 lbs

Direct-Drive w/ Briggs & Stratton®

910-1141	21"	5.5	18,025	25.50" x 21.00" x 26.25"	87 lbs.
----------	-----	-----	--------	--------------------------	---------

VSR Variable Speed Electric

913-1263	24"	2.0	15,663	29.50" x 21.00" x 30.00"	119 lbs.
----------	-----	-----	--------	--------------------------	----------

Safety First Blowers MADE IN THE USA

Safety First Blowers are an economical solution built specifically for the ballooning market. These inflators bring an elevated stance to break the ground effect and help ensure debris from the ground isn't picked up in the air stream. The features you'll find on these fans include our exclusive Turbo 2000 aluminum shroud, AirFlex composition impeller, welded steel frame, front and rear safety grilles, pneumatic wheels, vibration dampening feet (eliminates walking), custom color options (standard is red) and more.

Direct-Drive w/ Briggs & Stratton®

Part No.	Dia.	HP	CFM	Dimensions (WxDxH)	Weight
912-1161	24"	5.5	19,232	28.25" x 30.00" x 41.25"	84 lbs.

Direct-Drive w/ Honda® Engine

912-1160	24"	5.5	19,606	28.25" x 30.00" x 41.25"	86 lbs.
912-1180	27"	8.5	23,066	31.00" x 30.50" x 41.50"	118 lbs.
